PROFILE

Enthusiastic graphic designer and tech-savvy seeking to offer years of experience to a growing company. Brings skillset of Adobe Photoshop, InDesign, Illustrator, XD and more programs into the role to create modern digital designs for multiple company needs. Also some extra knowledge in SCRUM and Project Management.

EXPERIENCE

- 🕒 **Graphic Designer | 2021 - 2022**
Intratex, S.A.
Photo processing and editing so the photos could be used for the internal system, website and for catalogue creation.

Also created catalogues which were sent to clients for reference and purchase with the Sales Department. Had to take pictures of products for post- processing.

Here I had to have knowledge of: Adobe Photoshop, Adobe Illustrator, Adobe InDesign.
- 🕒 **Graphic Designer & UI/UX | 2021 - 2021**
Encrypt Fortress, S.A.
During the contract I was to do Quality Verification for the web portals the company had.

In addition to that, I had to developed a UI/UX for the diverse media the company requested to use such as new web portal for Admin, Sales Rep and Client use; each with his own layout and usage according to the need. In addition to remake the visuals of the internal messaging app.

Here I had to have knowledege of: Adobe Photoshop, Adobe Illustrator, Adobe XD, Adobe After Effects.
- 🕒 **Graphic Design Assistant | 2019 - 2021**
Vertigo, Zona Libre
The main task in this job was to generate images for the internal server as this images were used by the Sales Department and also for internal inventory.

Developed a template and processes to be used for speeding up the process of taking photos, editing and generating the final image to be used.

Here I had to have knowledge of:
 - Photography: use of the camera, flash, lights and composition.
 - Photoshop: being the main program that we used to edit and put together the template.
 - Illustrator: mainly used to create small vectors to be used within the template.

EXPERIENCE

○ Project Controller Assistant | 2017 - 2018

JE & Tech (subcontractor for AES Natural Gas Processing Plant)

General assistance regarding purchase of material, delivery and unloading; keep up to date all project drawings, paperwork and documents; Follow ups with daily tasks; Industrial Paint Supervisor.

As Industrial Paint I was in charge of approving and releasing Painted Welding Joints in Piping according to Quality Standards and Control.

○ Real Time Analyst | 2013 - 2017

HKT Teleservices

In charge of keeping the client's KPI while managing daily reports, forecasting for the next day, week and monthly based on previous data.

Responsible of scheduling and distributing accordingly to previous data, peak levels and KPI's needs.

Forecasting and results were presented weekly, monthly and quarterly. This was reported directly to Site Director and Client.

○ Graphic Designer | 2010 - 2011

Millennium Cyberstore

Small shop with multiple services. I was in charge of managing the customer requests, printing and mild tech support for the cybercafe area.

Used Photoshop, Illustrator and InDesign mainly; also Microsoft Word, PowerPoint and Publisher for the various requests that we get from our customers.
